

Lessee Safety And Environmental Manual Acknowledgement Form

The purpose of the ITC Lessee Safety and Environmental Manual is to assist the Lessee Safety Lead in implementing procedures and other controls necessary to promote safety, prevent accidents and prevent harm to the environment. There is also a need to provide adequate warning and training to all lessees and their contract employees regarding workplace safety and environmental stewardship. Our concern is for the well being of all employees and documenting lessee compliance with applicable rules and regulations.

I, the lessee, understand my responsibility to consult with the ITC Operations Manager regarding any questions not answered in this manual. I also understand that any negligence resulting from my employees or myself may result in a breach of lease.

The manual provides information to comply with federal and state rules and regulations, but is not all inclusive. Federal and state law may be subject to change at any time. I understand that although the manual is an important tool it does not account for all regulations that may need to be addressed through the course of work.

I acknowledge that this manual is neither a contract of employment nor a legal document, but acknowledgement that I have received a copy of the Lessee Safety and Environmental Manual. I will familiarize myself and our employees with the information contained in the manual and will comply with the procedures and programs applicable to our job scope while on-site.
